Agricultural and Forest Meteorology, 53 (1991) 357–358
Elsevier Science Publishers B.V., Amsterdam

Contents Volume 53, 1990–1991

VOL. 53, NOS. 1–2 NOVEMBER 1990

Research Papers

Canopy conductance, carbon assimilation and water use in wheat
D.M. Whitfield (Tatura, Vic., Australia) 1

Estimation of light interception and biomass of the potato (*Solanum tuberosum* L.) from reflection in the red and near-infrared spectral bands
P. Millard, G.G. Wright, R.V. Birnie, P. Whitworth (Aberdeen, U.K.) and M.J. Adams (Wolverhampton, U.K.) 19

The influence of thermal conditions on the conception rate of Holstein–Friesian cattle in the humid tropics
J.D. Kabuga (Kumasi, Ghana) 33

Seasonal changes in interrelationships between climatic variables
L. Guenni, C.W. Rose, W. Hogarth, R.D. Braddock and D. Charles-Edwards (Brisbane, Qld., Australia) 45

A comparison of measured and simulated soil temperature using air temperature and soil surface energy balance as boundary conditions
B. Thunholm (Uppsala, Sweden) 59

Non-water-stressed baselines: the importance of site selection for air temperature and air vapour pressure deficit measurements
S.B. Idso, P.J. Pinter, Jr. and R.J. Reginato (Phoenix, AZ, U.S.A.) 73

Gradient measurements with fixed and reversing temperature and humidity sensors above a thin forest
A. Lindroth and S. Halldin (Uppsala, Sweden) 81

Climatic factors and tree stature in the elfin cloud forest of Serrania de Macuira, Colombia
J. Cavelier (Merida, Venezuela) and C.A. Mejia (Bogota, Colombia) 105

Agroclimatology of the major fruit production in China: a review of current practice
S.B. Huang (Hangzhou, People's Republic of China) 125

Short Communications

Effects of greenhouse warming on maximum summer temperatures
R.C. Balling, Jr. and S.B. Idso (Tempe, AZ, U.S.A.) 143

Adjustment of leaf temperature measurements in LI-COR 6200 assimilation chamber using energy balance calculations
P. Rochette, R.L. Desjardins, L.M. Dwyer (Ottawa, Ont., Canada) and E. Pattey (Ste-Foy, Que., Canada) 149

A note on bit-mapped shadow modelling on hillslopes
R.D. Moore (Burnaby, BC, Canada) 157

Book Reviews

Meteorology and Agroforestry by W.E. Reifsnyder and T.O. Darnhofer (Editors) — R. Radulovich 159

Flow and Transport in the Natural Environment: Advances and Applications by W.L. Steffen and O.T. Denmead (Editors) — K.T. Paw U and J.W. Hopmans 161

Guide for Authors 165

VOL. 53, NO. 3 JANUARY 1991

Research Papers

Regulation of transpiration in field-grown sugarcane: evaluation of the stomatal response to humidity with the Bowen ratio technique
D.A. Grantz and F.C. Meinzer (Aiea, HI, U.S.A.) 169

Water stress as a constraint on growth in the potato crop. 1. Model development
R.A. Jefferies and T.D. Heilbronn (Dundee, U.K.) 185

Water stress as a constraint on growth in the potato crop. 2. Validation of the model
R.A. Jefferies, T.D. Heilbronn and D.K.L. MacKerron (Dundee, U.K.) 197

The budgets of turbulent kinetic energy and Reynolds stress within and above a deciduous forest
T.P. Meyers and D.D. Baldocchi (Oak Ridge, TN, U.S.A.) 207

Dispersion of aerial agricultural sprays; model and validation
F. Oeseburg and D. van Leeuwen (Rijswijk, The Netherlands) 223

The statistical analysis of shelterbelt structure and windproof efficiency
K.-J. Wen and Y.-S. Wang (Xinjiang, China) 257

VOL. 53, NO. 4 FEBRUARY 1991

Obituary i

Research Papers

Aerodynamic and surface resistances affecting energy transport in a sparse crop
J.M. Ham (Manhattan, KS, U.S.A.) and J.L. Heilman (College Station, TX, U.S.A.) 267

Plant growth and development in relation to the microclimate of a sorghum/groundnut intercrop
R.B. Matthews, R.A. Saffell (Loughborough, U.K.), S.N. Azam-Ali, J.M. Peacock and J.H. Williams (Andhra Pradesh, India) 285

Effects of summertime changes in weather and root-zone soil water storage on canopy CO_2 flux and evapotranspiration of two juvenile Douglas-fir stands
D.T. Price and T.A. Black (Vancouver, BC, Canada) 303

Thermal radiation exchange, convection and the storage of latent heat in animal coats
A.J. McArthur (Loughborough, U.K.) 325

Short Communications

A comparison of two Lagrangian dispersion models applied to forest canopies
D.J. Wallace (Pinawa, Man., Canada) and J.J.C. Picot (Fredericton, N.B., Canada) 337

A comparison of several models for separating direct and diffuse components of solar irradiation
P. Becker (Gadong, Brunei) and D.S. Weingarten (Miami, FL, U.S.A.) 347
